SUMMARY

I am firmly committed to pursuing my first work experience in a dynamic organization, where I can apply my logical thinking and problem-solving skills. With a background in Computer Science and ongoing specialization in MCA, I have developed skills in Java programming, project management, and teamwork, which I am eager to leverage for organizational growth. I am passionate about learning and contributing effectively.

KEY COMPETENCIES

- Type 96 words per minute
- Report writing and presenting
- Proficient with project management software
- Proactive and self-motivated
- Team Working

SKILLS

- Html and CSS
- My SQL
- Core java
- Collections
- Map
- Java
- Streams

PROJECTS

Dec 2024

TV REPAIR SHOP WEBSITE USING HTML CSS

To create a responsive and user-friendly website for a TV repair shop, enabling customers to access information about services, pricing, and contact details.

Jul 2024 - Nov 2024

SUPERMARKET USING COLLECTION IN JAVA

This project demonstrates your ability to integrate core Java features with practical application, particularly in managing real-world scenarios like inventory and sales tracking for a supermarket business.

- Effective use of Java Collections to store and manipulate data.
- Design and implementation of object-oriented systems.
- Understanding of how to manage large datasets efficiently using various Collection classes.

Jan 2024 - Mar 2022

STOCK MARKET PREDICTION

For my college final year project, This project focuses on building a Stock Market Prediction System using Machine Learning algorithms to predict future stock prices based on historical market data.

- A robust machine learning model capable of predicting stock prices based on historical data and technical indicators.
- Visual and actionable insights into stock market trends, helping users make data-driven investment decisions.

EDUCATION

MCA - MASTER OF COMPUTER APPLICATION

KgisI Institute of Information Management – 2024

B.Sc. Computer Science

Arulmigu Kalasalingam College of Arts & Science
- 2022

CERTIFICATIONS

Object Oriented Programming in Java

UCSan Diego

Java Programming: Solving Problems with Software

Duke University

Java Full Stack
